A Brief History of the Chicken

Even from the humble beginnings on Morrison Drive, we have strived to deliver quality, fresh food, that is a little different from the rest. We were optimistic about the future, probably naïve, but blindly pushed forward to make our dream work. Against most odds and the opinions of everyone except our parents, we managed to survive those first few years. Only the greater powers that be know how because we had no idea what we were doing. Along came David Miller, who partnered up with us shortly after we opened our second location on James Island. Finally, with much guidance and knowledge that David brought,

we were on the right track. We just want to thank all the great people we have working with us, those who have been with us in the past, and our customers, because face it, without ya'll, none of this is possible. We will continue to do our best to make sure you have an excellent experience. As different as three people can be, we all have the same goal, to take care of our customers, our employees, and to positively impact our community.

*Thanks for your support.
We hope to see you back soon.*
